Structural Design for Residential Construction

A licensed, structural engineer is the best professional to assess the feasibility of any major home renovation project. A site visit can be conducted to evaluate potential, structural issues. What other residential home issues require a licensed, structural engineer? In the event of a natural disaster which caused damage to your home

Residential Structural Inspection

Structural Inspection. A residential structural inspection is a detailed report of all the aspects of a structure's integrity. In this type of inspection, BE Structural inspects the foundation, interior walls, exterior veneer and roof system in order to provide a professional opinion as to whether they are in need of repair.
